## Summary

---

A teacher for Idea Public Schools focusing looking for an entry level data analyst position combining my passion for data and desire to tackle ways of better understanding problems through visualization tools.

## Skills

---

### Technical Skills

- SQL
- Tableau
- PowerBi
- Excel
- Python

### Projects

- Data cleaning in excel to make data easier to filter, organize, and visualize
- Querying a database using SQL and then discovering the effects of covid-19 on the world through graphs and charts

## Work Experience

---

### ADVANCED ALGEBRA II TEACHER | IDEA PUBLIC SCHOOLS| 2019-PRESENT

- Tracking students progress in excel to make data-based decisions in the class
- Used spreadsheets consistently to organize information related to testing, state programs, and roster management
- Presenting concepts in approachable way for students to understand

### CHEMICAL INVENTORY SPECIALIST | COLLEGE OF NATURAL SCIENCES | 2017-2018

- Labeling and registering hazardous lab chemicals for disposal while following safety guidelines.
- Tracking Inventory of lab equipment to be sold or repurposed

### FACILITIES SERVICES AGENT | FACILITIES SERVICES CENTER | 2014-2016

- Interaction with clients over the phone to manage trouble calls across UT campus.
- Coordinating various events for UT by providing supplies, workers, etc.
- Programming electronic mail center to find keywords in emails and redistribute them accordingly.
- Provided weekly assistance to the in-house IT professional for the office on various projects.

## Education

---

The University of Texas, Austin, TX, Bachelor of Science and Arts Mathematics | August 2018
